

Ishmal Shahid

ishishahid4@gmail.com | +92 306 3389585 | Gujranwala, PK | [Portfolio](#) | [LinkedIn](#)

Detail-oriented researcher and data analyst with hands-on experience in data collection, analysis, and AI-driven research methods. Skilled in Python, SQL, and analytical tools (pandas, Power BI, Plotly), with exposure to LLM-based research pipelines, vector search (FAISS), and structured reporting. Completed a supervised AI Research Program and a Data Analyst internship, building dashboards and deriving actionable insights from real business data.

SKILLS

Research & Data Analysis: Data collection, analysis & reporting, pandas, Power BI, Plotly, Matplotlib, Streamlit
AI / LLM Research: LLaMA, Hugging Face (sentence-transformers), FAISS vector search, Prompt Engineering, Claude, Gemini, ChatGPT, GenAI application development
Technical: Python, Django, SQL, PyMuPDF, web scraping
Web: HTML, CSS

PROJECTS

AI Career Readiness System — Agent-Based Application

- Built an AI-based career guidance platform using Python, Gradio, and LLMs, deployed on Hugging Face Spaces
- Engineered CV analysis and ATS scoring using FAISS vector search and Hugging Face sentence embeddings, with gap analysis and interview-preparation modules
- Integrated LLaMA for natural-language feedback generation across the full career-guidance pipeline

Business Analytics Dashboard — Streamlit Project

- Built an interactive dashboard in Streamlit and Python for business data analysis
- Created data visualizations with Plotly and Matplotlib to surface actionable insights

WORK EXPERIENCE

AI Research Program Participant *H&T Tech Solutions, Rochester, NY (Remote)*

- Conducted supervised AI research under Ms. Amna Saba, HOD Software Engineering, IISAT
- Gained practical exposure to AI concepts, research methods, analytical thinking, and emerging AI applications

AI Researcher *Google Developers Program (Remote) | 3 months*

- Recognized for technical leadership and innovative contributions to AI research initiatives

Data Analyst Intern *Techohub Data Analytics and AI, Lahore (Remote) | Jul 2024 – Feb 2025*

- Built interactive dashboards using Streamlit (Python) and automated recurring reporting processes
- Cleaned and analyzed datasets to generate actionable business insights
- Created data visualizations using Plotly and Matplotlib

EDUCATION

BS Software Engineering *IISAT, Gujranwala | Nov 2022 – Sep 2026 | CGPA 3.7*

CERTIFICATIONS

- Generative AI Application Developer Certificate — *HEC NCEAC (2026)*
- AI Researcher — *Google Developers (Certificate of Appreciation, 3 months)*
- AI Research Program — *H&T Tech Solutions, Rochester, NY (Remote)*
- Foundations of Agent-Based AI Systems — *LearnQuest*
- Advanced Python Programming & Applications — *NAVTTTC*
- Microsoft Azure Fundamentals (AZ-900) — *DataCamp*
- Power BI Fundamentals — *DataCamp*

ACHIEVEMENTS

- National Skills Test (2026) — Scored 88.1
- ISPR Internship Program — Jan–Feb 2026
